Difficulty
Beginner

Creating a user journey is a quick way to help you and your team gain a deeper understanding of who you're designing for, aka the stakeholder in your project. The information you add here should be representative of the observations and research you've done about your users. \varnothing

1 Phases		Provide important	Ro caroful during had	Always avoid
High-level steps your user needs to accomplish from start to finish	Know the road signs and signals	Driver controlled instructions and information on the condition of roads		Always avoid distractions
